# Specification & Filter Media

## **CF --- 560**

**Fine synthetic media**

**Multi-layered Structure**

**SuperFine with scrim**

Recommended face velocity 0.25 (m/s)

Rated initial resistance 26 (Pa)

Recommended final resistance 55 (Pa)

Average arrestance 95-98 (%)

EN779:2012 classification M5

Max. cont. operating t° 150 °C

Flame Resistant acc. To DIN 53428 F1/K1

Roll Size 2 x 20 (m)
